Office of the Senior Special Assistant to the President on Student Engagement, Abuja, Abuja

- Design, develop, and maintain official web platforms and digital solutions.
- Manage website content updates and ensure information accuracy.
- Monitor website performance and implement improvements where necessary.
- Provide technical support for digital projects and online platforms.
- Troubleshoot and resolve website-related issues to ensure optimal performance.

Computer Operator February 2024 – December 2024
Shadyee Computer Business Centre, Borno State, Maiduguri

- Provided computer typing, printing, scanning, and document processing services.
- Assisted customers with document formatting and preparation.
- Managed day-to-day computer operations and equipment usage.
- Supported clients with basic computer-related tasks and technical assistance.
- Maintained efficient workflow in a fast-paced service environment.

PROJECTS

GEEEEEP Official Website

Role: Web Developer

- Designed and developed the official G4EP website using Next.js, TypeScript, and Tailwind CSS.
- Built responsive pages for the organisation's news, gallery, about, and contact sections.
- Integrated Resend for website contact forms, email notifications, visitor confirmation emails, and inbound email forwarding.
- Implemented Cloudflare Turnstile to protect the contact form against automated spam and bot submissions.
- Managed SEO implementation, including metadata, Open Graph tags, canonical URLs, robots.txt, sitemap, and website indexing.
- Managed deployment and production configuration using Vercel and Cloudflare, including domain and DNS configuration.
- Optimized the website for responsive performance, accessibility, user experience, and maintainability.

Hon. Dr Judith Ogbara Official Website

Role: Web Developer

- Developed and managed the official website for Hon. Judith Ogbara.
- Designed responsive pages optimized for desktop, tablet, and mobile devices.
- Implemented content management features for news, projects, and public updates.
- Managed website deployment, updates, and performance optimization.
- Maintained website security, functionality, and user experience.

Fantasia E-Commerce Platform

Role: Web Developer

- Designed and developed a full-featured e-commerce platform with a responsive customer storefront and administrative dashboard.
- Implemented product browsing, shopping cart, checkout, order management, returns, discounts, and customer management functionality.
- Integrated secure authentication, Google Sign-In, and Paystack payment processing for a seamless purchasing experience.
- Developed an admin dashboard for managing products, orders, customers, gallery content, and other store operations.
- Managed deployment, performance optimization, image optimization, and ongoing platform updates.

AAE Foundation Official Website

Role: Web Developer

- Redesigned and developed the official AAE Foundation website from scratch using Next.js, TypeScript, Tailwind CSS, and Framer Motion.

- Built responsive pages for the organisation's home, about, programmes, impact, stories, get involved, and contact sections.
- Developed a dynamic News & Updates system using Prisma and Neon PostgreSQL, with code-managed story content and database synchronisation for published articles.
- Managed SEO implementation, including page metadata, Open Graph and Twitter tags, canonical URLs, robots.txt, XML sitemap, structured data, and Google Search Console indexing.
- Managed production deployment with Vercel and Cloudflare, including custom domain, DNS configuration, and production environment setup.
- Optimized the website for performance, responsive user experience, maintainability, and search-engine visibility.

Everything High Academy

Role: Web Developer

- Developed the official website for a modelling and talent development academy.
- Designed responsive pages for academy information, registration, gallery, and contact services.
- Implemented online registration functionality for prospective applicants.
- Integrated media management features for showcasing academy activities and talent portfolios.
- Managed website deployment, maintenance, and content updates.
